CERTIFICATION OF HAZARD ASSESSMENT FORM FOR PPE USE

To be reviewed annually

This form may be used to certify (document in writing) your hazard assessment. Keep it on permanent file in your department.

The hazard assessment is accomplished by surveying the workplace to determine where physical or health hazards are present or likely to be present which necessitate the use of personal protective equipment. Any additional or unique hazards should be added to this list of common sources and hazards.

NONE - Hazards requiring personal protective equipment are not present or likely to be present. SOURCE	PERFORMED BY (Name & Tit	le):	DEPARTMENT:	<u> </u>
